**Together, they equal
Original Medicare**

Medicare is a health benefits program for U.S. citizens or permanent residents who meet certain work history requirements:

Must be: Age 65 or older or Under age 65 with certain disabilities

- All who get disability benefits from Social Security or certain disability benefits from the Railroad Retirement Board for 24 months
- Individuals with Amyotrophic Lateral Sclerosis (ALS), often referred to as Lou Gehrig's Disease or with End-Stage Renal Disease

Signing up for Medicare

- If you receive benefits from Social Security or the Railroad Retirement Board (RRB) and are turning age 65, are under 65 and disabled, or have ALS, you will be enrolled in Medicare A & B automatically.
- You will receive your red, white, and blue Medicare card in the mail 3 months before your 65th birthday or your 25th month of disability benefits.
- If you are close to 65 and do not receive Social Security or Railroad benefits, you must contact Social Security 3 months before your 65th birthday.
- If you do not sign up for Part B when first eligible, your Part B premium may go up 10% for each full 12-month period that you could have had Part B and didn't sign up.
- If you or your spouse are still working and you have health coverage through an employer or union, you may delay Part B enrollment without penalty. NOTE: Coverage based on current employment does not include: COBRA, Retiree coverage, VA coverage, or Individual health coverage through Health Insurance Marketplace.

Two paths to choose

Medicare Supplement <i>Medigap</i>		Medicare Advantage
Can choose your own doctor and hospital. They must be Medicare-approved and accepting Medicare patients.	Physician and Hospital	Can choose your own doctor and hospital but most MA plans include a network of participating healthcare providers.
No referrals necessary.	Referrals And Prior Authorization	Referrals may be required before seeing Specialists, and most MA plans require Prior Authorization before receiving certain tests or procedures.
Prescription Drug coverage not included. Part D plans available at additional cost.	Prescriptions	Prescription Drug coverage is included in all Medicare Advantage Prescription Drug plans (MAPDs).

Medicare Supplement <i>Medigap</i>		Medicare Advantage
<p>No Network Requirements. Your coverage is portable and travels with you across the U.S.</p>	Travel	<p>PPOs and HMOs include networks. Emergency care is always covered when traveling.</p>
<p>Guarantee Issue if you enroll within first 6 months of Part B Effective Date. Otherwise, enrollment is usually subject to passing insurer medical underwriting.</p>	Enrollment	<p>7-month Initial Enrollment Period include 3 months before, the month of, and 3 months after your 65th birth-month. Enrollment based on your resident zip code; if you move you need to change plans.</p>
<p>Pay Medicare Part B Premium and the Medigap monthly plan premium. Your out-of-pocket costs are very limited. Don't forget Rx: standalone Part D plan purchased sold separately.</p>	Cost	<p>Pay Medicare Part B Premium and plan's monthly premium. Whenever you access healthcare services, you are generally required to pay copayments, co-insurance, and/or deductibles.</p>

Helping you understand **Medicare Advantage**

Medicare Advantage Considerations

Network requirements

Health Maintenance Organization (HMO)

- ✓ You must receive care and services from healthcare providers and hospitals in the plan's network (except emergency care, out-of-area urgent care, or out-of-area dialysis)*.
- ✓ HMOs may require you to obtain a Referral in order to see a Specialist.

**If your HMO has a point-of-service (POS) option, you may be able to go out-of-network for certain services (usually for a higher cost).*

Preferred Provider Organization (PPO)

- ✓ You may receive care from healthcare providers and hospitals that aren't in the plan's network, but it usually costs more.
- ✓ Look to see if out-of-network cost sharing is a fixed copayment or a percentage of charges, then review the plan's non-network annual Maximum Out of Pocket to understand your financial exposure when going out of network.

Private Fee For Service (PFFS)

- ✓ You can visit any doctor or hospital that accepts Medicare and agrees to the plan's terms.

Medicare Advantage Considerations

Medicare Advantage (MA) Benefits, Provider Network, and Service Area Changes

- MA plan carriers annually submit their benefit designs to Medicare (CMS) for review and approval. Members are notified each year (ANOC Letter) of how their benefits are changing for the next calendar year.
- MA HMOs and PPOs that include a Prescription Drug benefit may also change their list of accepted drugs each year.
- MA plans determine each year where their product is available.
- Healthcare providers may also change which MA plans they participate.

Medicare Advantage Considerations

What is Prior Authorization?

Medicare Advantage plans frequently require Prior Authorization, unlike traditional Medicare. This means your doctor needs to get the plan's approval before certain services are covered.

Helping you understand **Medicare Supplement / Medigap**

Medicare Supplement Insurance (Medigap) Considerations

You may add a Medicare Supplement plan to your Original Medicare

- You must have Part A & Part B and continue to pay the Part B premium.
- Plan designs range from A through N.
- Plan designs are standardized – a “Plan G” is the same regardless of insurance company. Only Plan Premium may vary.
- Medicare Part D Prescription Drug coverage is not included. A standalone Medicare Prescription plan will need to be purchased separately.
- Medicare pays first for Medicare-eligible benefits – then Medicare Supplement pays next for some or all of the patient’s portion.
- Medicare Supplement plans may also include some benefits not covered by Original Medicare [example: foreign travel coverage (limitations apply)].
- Unless you are within your **Medigap Open Enrollment Period**, Supplement plans usually require health statement underwriting (medical questions).

Medicare Supplement (Medigap) Considerations

What is Medigap Open Enrollment?

The best time to buy a Medigap policy is during your Medigap Open Enrollment Period. This is the 6-month period that starts the first day of the month you're 65 or older and signed up for Part B. After this period, your options to buy a Medigap policy may be limited, and the policy may cost more.

Medigap Open Enrollment Period

One-time enrollment period that does NOT repeat every year

Month 1	Month 2	Month 3	Month 4	Month 5	Month 6
---------	---------	---------	---------	---------	---------

Starts 1st day of your birthday month

- ✓ Have Part B
- ✓ 65+

Ends last day of 6th month

- ✓ Have Part B
- ✓ 65+

What if I miss my Medigap Open Enrollment?

The Medigap insurance company can deny you a policy if you don't meet medical underwriting requirements.

** This is an example of an actual Medigap application.*

Helping you understand **Medicare Prescription Drug Plans**

Part D: Standard Prescription Drug plan

Plans offered by private insurance companies must meet or exceed the minimum standard plan:

- ✓ Available to anyone who is enrolled in Medicare (Part A or Part B or Parts A & B)
- ✓ Provided by private insurance companies
- ✓ Monthly premiums vary by plan
- ✓ You are only allowed to have one Part D plan at a time
- ✓ If you don't enroll when you are first eligible you will pay a penalty of 1% for every month that you did not enroll
- ✓ Just like Part B, premiums could be subject to an income based premium surcharge
- ✓ Extra Help or low-income subsidy (LIS) is a Medicare program that helps people with limited income and resources pay for Medicare prescription drug costs

Late enrollment penalty is 1% per month multiplied by "national base beneficiary premium" rounded to the nearest \$.10 and added to your monthly premium.

Part D (cont)

Formulary:

- ✓ Each Medicare Part D Prescription Drug plan has its own list of covered prescription drugs
- ✓ These prescription drugs are placed into different “tiers” representing different costs – for instance: tier 1- preferred generic, tier 2- non-preferred generic, tier 3- preferred brand name, tier 4- non-preferred brand name, tier 5- Specialty tier- the higher the tier, the more expensive the prescription drug

Prior authorization:

- ✓ The plan you enroll in may require prior authorization for certain medications

Part D (cont)

Step therapy:

- ✓ Your prescription drug plan may require you first try certain less expensive medications that have been proven for most people with your condition before you can move up a “step” to a more expensive prescription drug
- ✓ If you have already tried the similar, less expensive prescription drugs and they didn’t work, your prescriber can contact the plan to ask for an exception
- ✓ If approved your plan will cover the step-therapy prescription drug

Part D: How it works

DEDUCTIBLE STAGE

You pay \$0–\$615
depending on your plan

\$35 cost-sharing on insulin

INITIAL COVERAGE STAGE

You pay your cost sharing until
you've paid a total of \$2,100

\$35 cost-sharing on insulin

CATASTROPHIC STAGE

You pay \$0
for the rest of the
calendar year

Member's prescription drug out-of-pocket limit \$2,100

Payment Plan Option:

The Medicare Prescription Payment Plan (MPPP): This voluntary program is intended to allow beneficiaries to spread their cost-sharing obligations throughout a plan year. The drug or health plan would be paid monthly and you would no longer pay at the pharmacy. One can opt in at any time.

Cost information for **2026**
Calendar year

*Total out-of-pocket costs are
the amounts paid by you

Penalty for late enrollment or
missing period is 1% per month

Additional Information

Part C & D: Medicare Enrollment Periods

Initial Enrollment Period (IEP/ICEP)

This is the time frame most people sign up for Medicare. A seven-month period, starting three months before the month in which you turn 65 and ending three months after that month (assumes you do not delay in Part B benefits).

Medicare Annual Enrollment Period (AEP) October 15 – December 7

Beneficiaries may switch plans, add or delete Medicare Part D Prescription Drug coverage, or return to Original Medicare. New plans will be effective Jan 1 of the following year. Guidelines apply.

Part C & D: Medicare Enrollment Periods

Medicare Open Enrollment Period (OEP) January 1 – March 31

MA plan enrollees may enroll in another MA plan or disenroll from their MA plan and return to Original Medicare (and elect to choose a standalone Prescription Drug plan). Individuals may make only one election during period, and you cannot change from one Prescription Drug plan to another.

Special Election Period (SEP)

Special enrollment periods may apply for a variety of situations including but not limited to: change of residence, loss of group coverage, or if your plan withdraws from the market for the upcoming year.

Month after the last month of employment
or employee health coverage
